

# GRABSTER AV350MX

## Burn your VHS tapes to DVD

Grabster AV 350 MX and MAGIX Movies on DVD TerraTec Edition are the perfect team to make great VCDs, SVCDs and DVDs with just a few clicks. For optimum transmission the recent hardware is equipped with a scart connector. Use the video and slideshow editing features and fully customisable motion menus to save your precious memories in premium quality on CD and DVD.

### **Connect**

Connect your video recorder directly via scart connector to the Grabster AV 350 MX without any annoying additional cables. You can also choose from Composite or S-Video inputs. No matter which source you choose: Grabster AV 350 MX supports any equipment with analogue video outputs like VCRs, satellite receivers, DVD players, camcorders and many more.

### **Record**

MAGIX Movies on DVD TerraTec Edition you can transfer your videos in full DVD resolution via the external USB converter to (on) your notebook or PC.

### **Edit**

Edit out the commercials or other unwanted parts from your recordings. Add slideshows and videos. Pep up your creation with a wide range of transition effects and set the right mood by adding music and live commentary. Finally, select a menu template or create an individualized animated menu. Now Grabster AV 350 MX will burn your CD or DVD.

Experience video to disc in one click - the fastest way to copy your movies to disc and on top of it all you can even give your CDs and DVDs an appealing finish with exciting, print-quality labels.

### **Play-back**

In no time at all, you have produced a professional DVD that is well worth watching—whether on your laptop or on your television. Surprise your friends with a DVD you created yourself!
